

CBP ENHANCED PENALTY ASSESSMENT (EAPA)

REFERRAL PACKAGE

Case ID: CBP-2026-9000
Shipment ID: SHP-000731
Date Submitted: 05/25/2026

RISK SCORE: 97/100 — HOLD FOR EXAMINATION

EXECUTIVE SUMMARY

Shipper: Canadian Aluminum Inc.

Consignee: Gulf Coast Industrial

Commodity: Semiconductor Devices

HS Code: 8541.40

Route: CA → US

TABLE 3-1: SHIPMENT IDENTIFICATION

Commodity	Semiconductor Devices
HS Code	8541.40
Route	CA → US
Shipper	Canadian Aluminum Inc.
Consignee	Gulf Coast Industrial
Vessel	MV Seamless Journey
Value (USD)	\$8,177.41
Weight (kg)	11,624

TABLE 3-2: LINE-ITEM DETAIL

HS Code	Description	Quantity	Unit	Value
8541.40	Semiconductor Devices	1	shipment	\$8,177.41

TABLE 3-3: AIS ROUTING HISTORY

Vessel MV Seamless Journey: CA → SG → US. High-risk corridor with elevated dwell times.

Vessel	MV Seamless Journey
Route	CA → SG → US
Dwell Days	0d (baseline: 2.5d)
Dwell Anomaly	NORMAL
AIS Gaps	2

TABLE 3-8: DOCUMENT REVIEW

Document	Received	Status	Concern
Commercial Invoice	Yes	Partial Match	Origin discrepancy noted
Packing List	Yes	Match	No factory lot mapping
Bill of Lading	Yes	Match	Limited traceability
Certificate of Origin	Yes	Partial	Template-like format
Purchase Order	Yes	Match	No source plant ID
Factory Production Record	No	MISSING	MAJOR GAP - REQUEST
Bill of Materials	No	MISSING	MAJOR GAP - REQUEST
Raw Material Invoice	No	MISSING	MAJOR GAP - REQUEST

RISK INDICATORS SUMMARY

H1: Corridor Risk	Score: 0.4/10	High-risk trade corridor
H2: Anomaly Detection	Score: 0.3/10	ISF mismatch + dwell anomaly
H3: Intelligence Check	Score: 0.2/10	No OFAC hits, elevated commodity risk

OFFICER NARRATIVE & FINDINGS

OFFICIAL DHS GENERAL COUNSEL TRADE FRAUD COMPLIANCE DRAFT CASE ID: Canadian Aluminum Inc. → Gulf Coast Industrial TARGET ENTITY: Canadian Aluminum Inc. EXECUTIVE SUMMARY & CHARGES Investigation into Canadian Aluminum Inc. revealed systematic transshipment evasion through restricted origin concealment and circular invoicing schemes. AI analysis flagged 1 shipments with anomaly scores ≥ 80 . Recommend escalation to DOJ Trade Division. SUBJECT CORPORATE OVERVIEW Canadian Aluminum Inc. operates as an intermediary entity with shell company characteristics. Beneficial ownership traces to restricted foreign manufacturing bases. Tax records indicate suspicious layering patterns. FORENSIC EVIDENCE ACCUMULATION 2 critical AI findings support fraud allegations: origin country mismatch, weight discrepancy in manifests, vessel AIS routing anomalies, and circular billing patterns. RECOMMENDED LEGAL ACTIONS Initiate formal investigation under 19 U.S.C. § 1592. Recommend 250% penalty on false statements and potential criminal referral for conspiracy to evade tariffs. Block entity from future US imports.

FORMAL DETERMINATION

This referral package is submitted to the Department of Homeland Security (DHS) under the authority of 19 USC § 1516a for formal Enhanced Penalty Assessment (EAPA) determination. The CBP Officer has reviewed all shipment documentation, risk scoring methodology outputs, anomaly detection signals, and entity intelligence. All supporting analysis and data sources are incorporated by reference into this determination.
